

# Unbeatable Value

3 year all inclusive **GiO** promotion  
“No Bills” guarantee!

Meiko, in conjunction with our national Partner Distributor network, has created what we believe is the **best-ever warewashing deal for caterers.**

Everything is up front with no hidden costs or unexpected surprises.

This added value ‘**FULLY-INCLUSIVE**’ package offers outstanding value, by combining the very best in dishwashing technology with local support and service from a professional catering equipment distributor that you can trust.

## 3 Year Warranty (GiO technology machines)<sup>1</sup>

Front loading and pass through glass, dish and utensil washing machines fitted with GiO reverse osmosis technology are offered with an extended three (3) year fully comprehensive “No Bills Guarantee”.

This all-encompassing “No Bills Guarantee” is conditional on the customer undertaking the replacement of the Carbon Activated water filter cartridge at intervals determined by Meiko and in accordance with the local mains water supply quality. The redundant filter cartridge then needs to be returned to Meiko UK in a postage paid envelope within **one (1) week** of receiving the new filter cartridge. Included with the first exchange filter cartridge will be a large head plastic spanner to release the lid of the carbon filter housing and a graphically illustrated instruction.

<sup>1</sup> It needs to be clearly noted, that failure to return the redundant cartridge to Meiko UK will result in the three (3) year “No Bills Guarantee” being withdrawn.
